

Xitech's 2" Skimmers

Economy Skimmer Light LNAPLs

Our 2" **Smart Skimmer** removes light LNAPLs such as: gasoline, diesel, #2 fuel oil, home heating oil, jet fuels, JP4, JP5, JP8, and aviation gas, down to a sheen. It can easily fit into a 2" schedule 40 well or larger and has a dual entry hydrophobic filter. This skimmer has a pumping rate up to 12 GPH and can operate up to 200 feet deep. The maximum air requirements are .5 CFM @ 125 PSIG and air quality requirements are clean dry air.

U.S. Patent # 5,326,458

Model ADJ200

Skimmer float travel: 24 inches
Size: 1.8" diameter x 48 inches long
Weight: 6 pounds

High Performance Skimmer Light LNAPLs

Xitech's all metal **High Performance 2" Skimmer** was designed to be chemically resistant to all LNAPLs and operate in a 212 degree steam environment. Also, it will remove: gasoline, diesel, #2 fuel oil, home heating oil, jet fuel, JP4, JP5, JP8, and aviation gas, down to a sheen. This skimmer easily fits into any 2" well or larger and has a pumping rate up to 12 GPH. The **High Performance Skimmer** can operate up to 200 feet deep and uses a dual entry hydrophobic filter. Maximum air requirements are .5 CFM @ 125 PSIG and air quality requirements are clean dry air.

U.S. Patent # 5,326,458

Model ADJ210

Skimmer float travel: 24 inches
Size: 1.8" diameter x 51 inches long
Weight: 8 pounds

Model ADJ215 (extended travel)

Skimmer float travel: 5 feet
Size: 1.8" diameter x 94 inches long
Weight: 10 pounds
